A man with a beard and dark hair, wearing a maroon polo shirt, stands next to a woman with blonde wavy hair, wearing a white V-neck t-shirt and olive green button-up trousers. They are positioned in front of a large, leafy green plant. The background is a bright, slightly blurred outdoor setting.

KARIBAN

Kariban is a corporate wear brand that imbues its ranges and collections with its deeply held values: quality, freedom and simplicity. With understated lines, carefully selected materials, fitted cuts and French elegance, the brand has created classic ready-to-wear pieces and must-have promotional business wear. Kariban is looking to go one step further by emphasising the idea of eco-responsibility in its production process. With this in mind, new products in Ecocert Greenlife-certified organic cotton have found their way into the Kariban wardrobe to promote the welfare of the environment and the people working to bring the collections to life. Read about our commitments on page 8. From must-haves to the most specific clothing; from materials to manufacturing processes that provide softness, comfort and optimal printability: Kariban has thought everything through to offer a wide range of colours and sizes, and to meet all your needs .

Why compromise on style when professional wear forms part of our everyday life?

A man and a woman are standing on an outdoor basketball court. The man is on the left, wearing a white short-sleeved V-neck jersey with dark blue trim at the collar and cuffs, and dark shorts. The woman is on the right, wearing a black sleeveless V-neck jersey with white trim at the collar and armholes, and white sneakers. The background shows the court's lines and a clear sky.

THE KARIBAN BRANDS COMMITMENTS

WHEN QUALITY MEETS RESPONSIBILITY

Kariban Brands want to offer the best corporate textiles and accessories **while protecting the environment and working conditions** of those producing all the products you'll find in this catalogue.

OCS-CERTIFIED PRODUCTS

The t-shirts, polo shirts and sweatshirts in Kariban's Organic collection, some Basic+ t-shirts, some of the Lounge collection, some Kup caps and Kimood bags are OCS-certified by Ecocert Greenlife. The Organic Content Standard issues a certificate for the production of non-food products made with organic materials. This certificate guarantees the traceability of the cotton used in our manufacturing process.

OEKO-TEX® STANDARD 100 PRODUCTS

This global label is the first intended to guarantee the total absence of products toxic to people and the environment at each stage in the treatment process (raw materials, yarn, dye). Most Kariban Brands products bear this label to assure you of the production control process.

"OUR BSCI MEMBER FACTORIES

Since 2003, the BSCI approach has improved social conditions for workers at consumer product manufacturers based in emerging countries. We work with factories following the BSCI code of conduct which guarantees worker rights relative to trade unions, child labour, working time, occupational health and safety and fair pay. Kariban Brands has also implemented its own code of conduct for all manufacturers.

TRUSTED PARTNERS

Sedex is a global organisation for companies looking to manage their performance in terms of labour law, health and safety, the environment and business ethics. The aim of our sourcing is to systematically surround ourselves with partners invested in these topics.

RECYCLING : OUR 0 WASTE GOAL

More and more Kariban Brands entities are adopting the strategy of recycling cardboard boxes and using large polybags to reduce the consumption of plastic wrapping. The catalogues are printed on paper compliant with PEFC / FSC standards. Finally, unsold brand stock is distributed to charities.

KIMOOD CONSCIOUS: A STORY BETWEEN A BRAND AND WOMEN

Kimood's Conscious collection comprises all the bags primarily made from natural materials in line with the Reach standard. It also includes OEKO-TEX® or OCS 100-certified products manufactured in an environmentally friendly factory that won us over. We have been writing a wonderful story with this factory for many years. Here's a look behind the scenes.

Recognised by the United Nations Global Compact* (UNGC), this factory has been rewarded for its exceptional initiatives for women, allowing them to give their families a more comfortable life and, in some cases, escape insecure crisis situations.

With a strong presence in the social and economic fabric of this region of India, our partner offers a nursery for its employees' children, provides them with access to health care and organises wellness activities and events, such as yoga classes and an environment day. Furthermore, this factory champions environmental protection, producing its energy with solar panels and using water purification and sanitation systems.

Fitted out with latest-generation machines, this factory guarantees high-quality end products. To keep its standards high, it is frequently audited by organisations such as OCS, Oekotex, BSCI and Fair Trade.

For all of these reasons, we opted to entrust this factory with the production of our Conscious Collection bags which reflect the moral, social and ethical values upheld by our brands.

* The United Nations Global Compact is a United Nations initiative launched in 2000 in an effort to encourage businesses worldwide to adopt a socially responsible attitude by working to integrate and promote a group of principles relative to human rights, international labour standards, the environment and the fight against corruption.

The quality of our products matters, so does these women's happiness.

Colour representation is only as accurate as the printing process will allow and has no contractual value. Kariban, Proact, K-Up and Kimood brands cannot be held responsible for any technical or typographical inaccuracy in this catalogue.

This catalogue is printed on Programme for the Endorsement of Forest Certification PEFC paper which testifies the forest owner's commitment to implement sustainable forestry management practices as well as comply with environmental, economic, social and ethical standards in their manufacturing process. The printer of this catalogue is ISO 9001 and ISO 14001 certified, and also works in compliance with the «Imprim'Vert» charter, promoting actions to reduce the impact of their activities on the environment: proper disposal of dangerous waste, prohibition of toxic substances, secured storage of dangerous liquids, monitoring of energy consumption and promotion of environmental awareness among both employees and customers.

	The OCS 100 logo is used only for product that contains 95 % or more organic material.
	The OCS blended logo is used for products that contain 5 % minimum of organic material blended with conventional or synthetic raw materials.

Kariban demonstrates its environmental commitment by providing a collection made from organic cotton. The brand chose ECOCERT, a French certification body for sustainable development, in order to prove its compliance with the Organic Content Standard OCS reference frame. OCS certification is a voluntary process, which demonstrates the traceability and integrity of raw materials throughout the production chain in order to guarantee textile composition for end consumers. Kariban is OCS-certified under the licence number 165 651.

	Oeko-Tex® Standard 100 meets the needs of both the textile supply chain players and consumers as regards human ecology. This standard guarantees the absence in all certified articles of any harmful substances or that may pose a threat to human health or the environment. With a concern to continuously improve the quality of our products, we are implementing every effort to achieve 100 % of our Oeko-tex standard 100 certified textiles. Our certificates are delivered by the French institute of textiles and clothing - Institut Français du Textile et de l'Habillement, IFTH.

The new polos underwent antibacterial treatment to reduce unpleasant odors and the presence of bacteria. The polos thus maintain the freshness. Resistant to washing at 60° and dry cleaning, they are more durable. Finally, they promote respect for the environment by reducing washing cycles and in fact energy consumption
